Why do I have to pay so much for fees? Students in co-curricular activities such as band and color guard pay fees to participate because of the additional expenses not covered by the district. Color Guard, Marching Band, and Concert ensembles have expenses totaling tens of thousands of dollars per year. The expenses include but are certainly not limited to: music and licensing, masterclasses, performance/contest fees, instrument repairs, uniform maintenance, guest instructors, technicians, drill writers, music composers, etc... Each associated fee is distributed equally amongst all students in the program. The band program budgets for expenses each year and relies on the students meeting their fee obligations in order to operate efficiently.

1. Everyone needs all required items. **

2. Students will need to purchase a Tuner & Metronome. We recommend Williamson 1st, Music & Arts or Guitar Center. *Students may also use a director-approved Smart Phone App.*
3. Brass and Woodwind students will need to purchase a flipbook and lyre, both are instrument specific
